Message from York Water District

Dear Neighbors:

Periodically, we at the York Water District like to share a friendly reminder with our neighbors in the immediate area of the Josiah Chase Water Filtration Plant, Chases Pond, and our other important infrastructure such as storage tanks and fire hydrants that although we have numerous security measures in place, your local hour to hour presence is extremely important to us. Some of our infrastructure is located in areas that are difficult to patrol as often as we would like and having more eyes observing the property is always best. We recognize and appreciate that you are a valuable partner in the protection of the District's resources against illegal and/or unwanted activities that might take place.

Summer is approaching and there will be increased outside activity; the District encourages you to report any unusual observations or suspicious activities, illegal dumping or vandalism at or near our properties and infrastructure to the York Police Department immediately. We ask that you stay safe and please do not attempt to remedy any situation or confront strangers yourself. We also ask that you notify the police of auto accidents and other potential spills in the watershed.

Please report suspicious activities to the York Police Department at 363-4444 or in case of emergency call 911.

When reporting a suspicious activity please:

- State the nature of the activity.
- Identify yourself and your location.
- Identify the location of the activity.
- Describe any vehicle involved (color, make, model, plate#, distinguishing characteristics, etc)
- Describe the participants (how many, sex, race, hair color, height, weight, clothing, etc.)

Thank you for your assistance and enjoy the season!

The Staff of York Water District
