Application for Water Service

- Owners/Contractors must fill out and complete an application for water service.
- York Water District will complete an estimate to identify associated cost.
- Excavation is not included in the estimate.
- Once the estimate is paid the contractor who was hired by the owner will contact the General Foreman Webster Ropke or Foreman Larry Graham to schedule the water service work.
- All service taps, meter pits, water meter installations and any other water utility work will be scheduled after April 1st on a first come first serve basis. The District will not do any water utility installations after November 15th. No exceptions.
- The York Water District must receive full payment prior to scheduling the proposed utility work.
- If the proposed work is not scheduled and completed within 45 calendar days of the York Water District receiving full payment, the payment will be returned and a new application and a new estimate will need to be completed.

Seasonal Conversion Permit

- If the property requires a Town of York Seasonal Conversion permit, the water meter will not be installed until the owner shows proof of the Town's approval.
